07/13/01 A00-06-032 Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.

Summary: On July 11, 2001, Salle Yoo, counsel for Calpine Corporation (Calpine), attended an all-party meeting with Cmmr. Wood in San Francisco. Also present were: Steven Weissman, advisor to Cmmr. Wood; Mark Pocta representing the Office of Ratepayer Advocates; Craig Chancellor of Calpine; Michael Day, representing Kern River Gas Transmission Company and Questar Southern Trails Pipeline Company; Thomas Beach representing Watson Cogeneration Company; Marcel Hawiger representing The Utility Reform Network; Jeff Hartman and Allison Smith representing Southern California Gas Company (SoCalGas); and Norman Pedersen representing Southern California Generation Coalition. Yoo stated that Calpine supports the adoption of a peaking rate which fairly charges rates based on SoCalGas' actual costs to provide peaking service. Yoo stated that Calpine supports the alternate. Yoo also stated Calpine's support for an interruptible peaking rate. Yoo reiterated Calpine's support for a demand charge based on a customer's coincident peak usage. Yoo stated, however, that if the Commission intends to adopt a demand charge based on a customer's 12-month rolling average usage figures, Yoo urged the Commission to calculate the average based only on future usage.

Summary: On July 10, 2001, Lindsey How-Downing, counsel for Calpine Corporation (Calpine), attended an all-party meeting with Cmmr. Duque in San Francisco. Also present were: Laura Krannawitter, advisor to Cmmr. Duque, Sarita Sarvate of the Commission Energy Division, Mark Pocta of the Office of Ratepayer Advocates, Avis Clark of Calpine, Michael Day representing Kern River Gas Transmission Company (Kern) and Questar Southern Trails Pipeline (Questar), Ned Greenwood representing Questar, Mark Moench representing Kern, Marcel Hawiger representing The Utility

Reform Network, Jeff Hartman and Allison Smith representing Southern California Gas Company (SoCalGas), Leslie Katz and Claudine Swartz representing Sempra Energy, Thomas Beach representing Watson Cogeneration Company, John Hughes representing Southern California Edison Company, and L. Weinzimer representing California Energy Market. How-Downing stated Calpine's support for the alternate, which offers significant improvements over both the SoCalGas proposed peaking tariffs and the proposal recommended in the proposed decision. How-Downing explained that the alternate would appropriately adopt peaking rates based on customers' actual use of SoCalGas' system during peak days. How-Downing urged the Commission to adopt the alternate, with certain modifications. How-Downing also stated Calpine's support for an interruptible peaking rate.

Summary: On July 11, 2001, Lee Stewart, President of Energy Transportation Services for Southern California Gas Company (SoCalGas), attended a meeting with Cmmr. Bilas in San Francisco. Also present were Julie Halligan, advisor to Cmmr. Bilas, Jeff Hartman, Director of Sales and Marketing for SoCalGas, Leslie Katz, Regional Vice President, and Claudine Swartz, Regulatory and Governmental Affairs Manager, of Regulatory Affairs for Sempra Energy, and Marcel Hawiger of The Utility Reform Network (TURN). Swartz stated that SoCalGas supports the proposed decision (PD) but pointed out that it mixes two rate methodologies. Swartz urged the Commission to embrace SoCalGas' proposed rate design methodology. Alternatively, Swartz suggested that the Office of Ratepayer Advocates proposed monthly average rate methodology be adopted but modified to include a floor of 125 percent of usage. Stewart stated that SoCalGas does not support the alternate as it does not allow SoCalGas and the interstate pipelines to fairly compete with one another and does not ensure that the captive customers of SoCalGas are not forced to subsidize large customers who elect peaking service. Hawiger stated that core ratepayers should not subsidize the peaking service and that TURN is concerned that costs are not shifted to core customers. Katz stated that the peaking rate is a premium service and that customers who elect the peaking service should be charged a premium rate. Hartman stated that the Commission should not calculate demand charges based on customers' usage on the system peak day, but instead based on customers' ability to demand firm service on the pipeline any day of the year.

Reform Network, Avis Clark, Craig Chancellor, and Salle Yoo, for Calpine Corporation, and Norm Pederson for Southern California Generation Coalition. Hartman stated that SoCalGas supports the proposed decision but pointed out that it mixes two rate methodologies. Hartman urged the Commission to modify the proposed decision and embrace SoCalGas' rate design methodology. Alternatively, Hartman suggested that the Office of Ratepayer Advocates' monthly average rate methodology be adopted but modified to include a floor of 125 percent of usage. Hartman explained that the alternate makes it impossible for SoCalGas to determine what level of firm service it must provide and that it embraces a rate methodology which will likely cause SoCalGas to charge peaking customers a rate that is less than today's tariff rate. Hartman stated that the peaking rate has not prevented electric generators from building in SoCalGas' service territory. Smith stated that it is not appropriate to compare the Pacific Gas and Electric Company system to the SoCalGas system. Smith stated that the peaking rate has not deterred interstate pipelines from adding capacity.

Summary: On July 11, 2001, Norman Pedersen, representing the Southern California Generation Coalition (SCGC), attended an all-party meeting with Cmmr. Wood in San Francisco. Also present were Steve Weissman, advisor to Cmmr. Wood, Mark Pocta of the Office of Ratepayer Advocates, Jeff Hartman, Alison Smith and Claudine Swartz for Southern California Gas Company (SoCalGas), Michael Day for Kern River Gas Transmission Company and Questar Southern Trails Pipeline (Questar), Ned Greenwood for Questar, Avis Clark, Craig Chancellor and Sally Yoo for Calpine Corporation, Marcel Hawiger for The Utility Reform Network, Leslie Katz for Sempra Energy, and Thomas Beach for Watson Cogeneration Company. Pedersen stated that

SCGC supports the language in the alternate about the need for additional pipeline capacity. Pedersen said that SCGC supports application of the SoCalGas service interruption credit to peaking service customers. Pedersen also stated that SCGC supports application of the peaking rate on a facility-by-facility rather than a customer-by-customer basis. Pedersen suggested one change to the alternate so that peaking rate customers would be able to take advantage of the same balancing provisions that apply to other SoCalGas customers. Pedersen pointed out that the costs associated with providing such balancing services would be included in peaking rates.
